1

A WEEKLY REVIEW OF CURRENT PROGRESS IN ELECTRICITY AND ITS PRACTICAL APPLICATIONS.

Vols. V. and VI.

UNIV. OF CALIFORNIA

From Jan. 3, 1885, to Dec. 26, 1885.

NEW YORK:
W. J. JOHNSTON, Publisher,
NO. 9 MURRAY STREET.

E5
v. 5-6

UNIV. OF
CALIFORNIA

INDEX TO VOLUME V.

* Illustrated articles. The weekly Departments are not indexed.

REVIEWS OF NEW BOOKS.

American Electrical Directory for 1885 - 192
Distribuzione della Energia Elettrica a Domicilio ad alta Tensione ed a Corriente Continua - 202
Electric Illumination - 162
Elettricita a le sue Applicazione all'Esposizione di Torino dell 1884 - 202
L'année Electrique - 82
Magneto and Dynamo-Electric Machines - 182
Modern Electricity and Magnetism - 192
Proceedings of the National Conference of Electricians - 132
"Quadruplex," The - 22
Stationary Steam-Engines - 52
Traité Elémentaire de la Pile Electrique - 82
Transactions of the American Institute of Electrical Engineers - 132

CORRESPONDENCE.

Advantages of a dry, warm house, The - 127
Arc lamp magnet, The - 148
Bidwell electric railway, The - 58
Carpet, shoe friction and dry air - 148
Charging secondary batteries - 204
Circuit troubles—Facts and theory - 98
Combined diplex and duplex system - 118
Combined diplex and duplex - 138
Diplex and duplex - 158
Dynamo winding - 148
Electrical measurements - 148
Electro-magnet coils - 148
Gerrit Smith duplex, The - 78, 98, 138
Hell Gate light - 19
Jenney electric lighting patents, The - 248
Kansas City items - 128
Kansas City notes - 82
Magnetization of watches - 118
Mathematical electricity - 9
Mr. W. H. Preece, F.R.S., and the Watt - 118
"One between the eyes" - 28
Pertinent questions - 188
Pittsburgh jottings - 248
Small storage batteries - 98
Telephone in New Orleans, The - 8
Telephone rates in Winnipeg - 138
Telephonic telegraph, The - 148
Ten questions - 158
What was it? - 28

TELEGRAPH.

*Aërial conduit for electric wires, An - 185
Another underground conduit - 173
Associated Press telegraph service, The - 187
Automatic signal telegraph stock, The - 163
Baltimore & Ohio extension and reduction - 12
Baltimore & Ohio in Pennsylvania, The - 108
Baltimore & Ohio victories - 134
Baltimore & Ohio Company's answer, The 183
Bankers & Merchants' prospects, The - 27
Blind telegraph messages - 17
*Brooks underground system in New York City, The - 245
Cable censorship in San Salvador - 165
Cable combination, The - 208
Cable interests - 55
Central and South American telegraphs - 46
Cheap telegraphy - 22
Condition of the Postal Company, The - 214
Connecting light-ships with the shore - 155
Continental Underground Cable Co., The - 106
Direct cable and the Muirhead duplex, The 228
*Electric cables - 153
In favor of aërial wires - 96
*Installation of Baillehache's printing telegraph at the Crédit Lyonnais, Paris - 133
Lay of the telegraph pole, The - 178
Messenger boys defrauded - 2
Mexican telegraph company - 78
Mutual Union deal, The - 165
National Telegram Company, The - 242
New cables in New York harbor - 215
Operator's speculation in hair, An - 257
*Overhead telegraph wire—IV.—V. - 5-25
Philadelphia poles and wires - 78
Prosperity of the Mexican Telegraph Company - 102
Purchase of the B. & M. by the Postal - 78
Railroad telegraph privileges - 97
Railroad telegraph facilities - 108
Railway Telegraph Superintendents, The Association of - 254
Rapid Telegraph Company, The - 216
Rebellion against Reuter, A - 228
Revenue from poles and wires - 28
Russian lines in Asia - 187
*Spellier's time telegraph system - 54
Strange dealing in Mutual Union Telegraph stock - 152
Telegraph companies for cheap work, Suing the - 254
*Telegraphic communication with moving trains - 73
Telegrapher's conscience money, A - 257
*Telegraphing and telephoning simultaneously over the same wire - 203
Telegraphers, Gen. Grant and the military 256
"Ticker" in London, The - 62
*Underground conduits - 168
Underground wires - 75
Underground wires, English experts on - 13
Underground wire law, The - 242
Western Union earnings and dividend - 114
Western Union figures - 242
Western Union and the railroads, The - 77
Western Union pneumatic tube system, The 24
Western Union stock is held, Where - 247

TELEPHONE.

American Bell petition, The - 214
American Bell Company's capital, The - 107
Annual meeting of the Bell Telephone Company - 136
*Automatic resistance reducer for telephone lines - 127
Bell vs. Baxter case, The - 142
Bell Company's petition, The - 117
Bell patent null and void in Canada, The - 47
Bell patent in Canada - 54
Bell telephone figures - 97
Bell telephone inquiry, The - 167
Bell telephone conference, The - 202
Bother with the telephone - 235
Boston telephone conference, - 232, 244
Celebrated telephone case, A - 8
*Compact telephone, A - 195
"Das Telephon" - 209
*Dr. Ocherowicz's loud-speaking telephone 127
*Differential telephone, The - 212
*Edison's telephonic inventions - 76, 85, 94, 103
Erie financial statement - 186
Erie Telegraph and Telephone Company - 254
Experiment with the Beecher portable telephone - 208
*Factory of the Bell telephone manufacturing company at Antwerp, The - 203
Finances of the New England Telephone Company, The - 108
*Freeman telephone, The - 233
Important telephone suit, An - 229
Investigating the telephone business - 176
*"Law multiple" switch table, The new - 226
Lowell telephone suits, The - 212
Magneto telephones - 238
Mexican Central Telegraph and Telephone Company, The - 209
Mexican telephone interests - 158
*"Molecular" telephone, The - 207
New England Telephone Company, The - 195
New England Telephone Company's quarterly report, The - 86
*New mercury telephone, A - 242
Overland telephone suits - 11
*Prof. Sylvanus Thompson's telephone receiver - 222
Prof. S. P. Thompson - 14
Progress of the International Bell Company 82
Right of telephonic communication, The - 142
Russian use of the telephone - 75
*Small zinc accumulators for telephone and telegraph purposes - 102
Suit for infringement of Bell patents - 133
*Taylor's electric telephone - 164
Telephone ball in Kansas City, A - 58
Telephone for coast life service, The - 95
*Telephone circuits in the Paris sewers - 75
*Telephone exchange system, A model - 104
Telephone exchange, A model - 253
Telephones exported - 153
Telephone matters in Massachusetts - 84
*Telephone manufacture in England - 147
Telephone in New England and Illinois - 208
Telephone in New England, The - 198
Telephone and telegraph in Illinois - 213
Telephones and lightning arresters - 215
Telephone legislation in Massachusetts - 184
"Telephone" the same as "Telegraph" - 78
Telephone on the River Plate, The - 116
Telephone patent interferences, The - 37
Telephone troubles in Vermont - 95
Telephone in the West - 58
Telephone statistics for Europe - 148
Telephonic circuits - 96
Telephonic communication in New Brunswick - 1
Telephonic "ghost story," A - 214
Telephony in France and in England - 67
Tropical Telephone Company, The - 28
Tropical telephone finances - 253
Undulatory current in a closed circuit not necessary for telephonic transmission - 46
*Valve telephone transmitter, A - 202

ELECTRIC LIGHT.

Advance of the Van Depoele system, The - 122
Arc and incandescent interests combined - 188
*Brush incandescent machine, The - 173
Brush light and Judge Biddle, The - 4
Brush-Swan company, Removal of the - 252
*Buckeye engines in the Municipal electric light station, Brooklyn, The - 243
Carbon products from natural gas - 28
Cement for connections in incandescent lamps, A - 92
Christmas tree lighted by electricity, A - 6
Continuing an electric light injunction - 185
Cost of lighting New York streets, The - 175
Cost of public lighting in Chicago, The - 57
*"Criado" electric illuminator, The - 234
*Curious phenomena observed in incandescent lamps - 112
Darkness at Hell Gate - 28
*Diehl's arc lamp - 92
*Diehl's incandescent electric lamp - 82
Domestic electric lighting - 222
Economy of electric light, The - 6
*Edison effect, The - 184
Edison effect, The - 215
*Electric laryngoscope and otoscope, An - 175
*Electric laryngoscope, A new - 216
Electric lighting combinations in Boston - 244
Electric light carbon interests - 48
Electric light a commercial success? Is the 243
Electric light combinations in New England - 64
Electric light on board the U. S. ship "Omaha," The - 234
Electric light convention, The - 74, 78
Electric lighting in Canada - 27
Electric light considered irreligious, The - 32
Electric lights for English legal lights - 8
Electric light in France, The - 108
Electric light, God's (poem) - 257
Electric light infringement suits - 186
Electric lighting of railway trains - 7
Electric lighting tests by the Franklin Institute at Philadelphia - 102
Electric light on the Pennsylvania Railroad, The - 254
Electric lighting in theatres - 117
*Electric lighting underground - 34
Electric lighting as a paying business - 77
*Electric lighting, A new oscillating engine for - 253
*Electric scarf-pin, An - 72
Electro-deposition of carbon, The - 156
*Exhausting the air from incandescent lamps - 213
*Gas engines for electric lighting purposes - 86
Gérard incandescent lamps at the Paris Electrical Exposition - 186
Important electric lighting developments 92
Incandescent lighting on the same circuit with arc lighting - 238
*Incandescent electric lighting at the Exposition - 115
*Incandescent lighting patent suits, The - 195
Incandescent lamp tests at Philadelphia - 175
Jenney lighting interests, The - 142
Lecture on the Edison system, A - 72
*"Lever" electric arc lamp - 192
Lighting experiments at South Foreland 182
Lighting men-of-war - 71
*Lumley incandescent system, The - 236
New electric lighting combination, The - 198
*New pocket battery and electric lamp, A 156
*Oppermann system of incandescent lighting, The - 78
*Photometrical measurement of the incandescent lamp - 205
*Portable electric light plant - 173
Progress of electric lighting in New York City - 42
Proposed electrical light convention, The - 68
*Reflector for incandescent lamps, A - 117
Resistance of the voltaic arc, The - 156
Resistance of carbon contacts, The - 48
*Rotary engine for electric lighting - 7
*Thomson-Houston dynamo-electric machine, The - 123
*Thomson-Houston system at the Philadelphia Exhibition, The - 3
Too many lights in a circuit, - 187
*Tower system of electric lighting, The 46
Train lighting by electricity, - 27
*Western Electric Company's Lighting System, The - 143
*Weston regulator and indicator for central stations, The - 235
Woodhouse & Rawson lamps at the Vienna Exhibition, - 52

MISCELLANEOUS.

Allegheny notes - 83
American Electrical Exhibition, The - 18, 28
American Institute of Electrical Engineers, The - 208
*American Sectional Underground Company, The - 66
*Amet electric governors, The - 87
Analysis of Ohm's and Joule's laws - 126
Analytical and systematic method of inventing, An - 26, 56, 62, 105, 125, 174
*Automatic cut-out, An - 116
Awakened Patent Office, The - 188
*Bartholdi Pedestal Fund, The - 218
*Battery, Physician's cabinet - 257
Battery tests - 157
Battery, called the Auto-accumulator, On a new - 236
Batteries with insoluble anodes - 33
Benefits derivable from universities, The - 116
Bidwell railway at the Boston Exhibition, The - 8
Blake's new transmitter - 16
Bureau of Standard Electrical Resistances in France - 134
Career of a leading electrician, The - 127
Cell, A constant - 253
Chat about units and their meaning, A - 18
Chiffonniers, A new field for - 122
*Chloris Baudet "Impolarizable" battery, The - 178
*Chronological record of expiring electric motor patents, A, I., II., III., IV., V. 17, 33, 65, 93, 154
Cincinnati Electrical Society, The - 27
*Combined tangent, cosecant and sine galvanometer - 165
Compass in iron ships, The - 182
Co-operative Building Association, The - 1
Cost and retail price of gas - 92
Criticising the critique - 19
*"Curt" battery, The - 216
Daft motors, Coming tests of the - 158
Daft motors, The - 186
Daft motor "Volta" at New Orleans, The 134
Dangerous leakage from gas-pipes - 87
Dangerous currents - 146
Dangers of high-tension currents - 97
*"De Redon" call-bell, The - 238
*Death of Mr. L. G. Tillotson - 52
*Delafield pipe dynamo, The - 22
Depositing nickel upon zinc - 192
Determination of the ohm by the damping method - 217
Development in the East - 236
*Direction of currents, How to remember - 162
Dr. Werner Siemens on the production of electricity from light - 166
Dynamos economical? Are large - 57
*Dynamo "freak," A - 186
*Dynamo gas-lighter, The - 67
Dynamos, Danger from - 164
*Dynamo and pocket battery, A new experimental - 197
*Dynamo, A new English - 135
Dynamo's long run, A - 76
Edison as an electrical litterateur, Mr. - 38
Edison-Field system on the elevated railroads, The - 184
Edison priority claims, The - 216
*Electric aurophone, The - 254
*Electric call-bell, An - 187
Electric currents, On protection from - 32
*Electric dental mallet, An - 156
*Electric discharges photographed directly without an object lens - 83
*Electric dumb-bell, An - 215
*Electric fire-alarm thermostat, Hill's patent - 72
Electric facts from New Zealand - 18
Electric gas-lighting patent suits - 37
Electric gas-lighting controversy, The - 57
*Electric leather belting - 247
*Electric measuring apparatus - 157
Electric protection against thieves - 112
Electric railways for New York - 134
Electric railways - 208
*Electric railways, VII., VIII., IX. 13, 23, 63
Electric railway signal, A new automatic - 236
Electric railway propulsion - 11
Electric shocks, Recovery from alleged severe 252
Electric steering apparatus, An - 233
Electric steering gear, An - 174
*Electric time register, A watchman's - 117
Electric transmission of power in Boston - 32
*Electric Tube Company, The - 125, 137, 146
Electrical combination, An important - 132
Electrical department, The Philadelphia city - 108
Electrical development in America - 22
Electrical corporations, Taxes on - 1
Electrical discharge in gases, The - 163
Electrical inventions, The protection of, 218, 246
*Electrical measurements - 35
Electrical nomenclature and notation - 252
Electrical studies at Cornell University - 203
Electrical transmission of power at Providence, R. I. - 55
Electrical underground railway for Broadway, An - 207
ELECTRICAL WORLD Bartholdi Pedestal fund, The - 248, 257
*Electrical transmission of energy, On, I., II., III. - 152, 172, 182
*Electrical workshop, A lathe for the - 257
Electricity cheaper than oil - 74
Electricity, A crane worked by - 22
Electricity, A new and important application of - 252
Electricity, Heating by - 42
Electricity in the menagerie - 238
*Electro-magnets, Construction of - 242
Electro-magnet, A long pull - 142
Electromotors, Determining the work of - 217
Engine, A new - 48
Engine governor, A new form of - 22
Evansville hybrid, The - 54
*Excelsior electro-plating dynamos, The - 15
Exchanges and their subscribers, The rights of - 124
*Fast-sending contest, A - 146
Fighting for the poles - 144
Firm, A new - 187
*Fitchburg steam engine - 155
*Fithian engine, The - 174
Fournier's compass regulator - 98
"Fundamental" patent, Another - 207
*Galvanometers, Two new sensitive - 145
General Stager, Another story about - 257
*General Anson Stager, The late - 132
Gold and Stock Tax Case, The - 45
*Hall's electric locomotive of 1850 - 16
*Handy testing set, A - 252
*Handy wire gauge, A - 102
Hard-drawn copper wire, The use of - 82
High-tension currents to houses, Distribution of - 86
High-speed engines - 167
How to make collections - 182
*How shall Liberty enlighten the world? - 217
Influence of magnetism on chemical action, The - 148
*Insulator bracket, A new - 108
*Instruments of Precision in electro-diagnosis, New - 222
*Kauffer's electric batteries - 45
*Kriebel steam engine, The - 87
*Laboratory rheostats - 194
Lady Aylmer - 255
Lick observatory apparatus, The - 8
Lightning rods for oil tanks - 254
Lightning and the Washington Monument 247
Lightning strokes, Characteristics of - 18
Long spans with silicious bronze wires - 46
Luminous phenomena of electrolysis - 27
Magnetism, Experimental researches in - 64
Magnetism, Permanent - 72
Magnet as a hypnoscope, The - 17
*Magneto-bells for railroads - 183
Magnetizing the loadstone - 64
Magnetization on iron and steel bars, Effect of - 212
*Magnetic shield for watches, A - 58
*Measuring instruments at the Philadelphia Exhibition - 43
Mercury - 242
Metric system of weights and measures, The 8
*New York Safety Steam Power Company's Engine, The - 113
New York Electrical Society - 116, 253
New Zealand notes - 58, 114
"Not quite so free, please" - 8
Organ, A big electric - 257
Paraffin insulation, Notes on - 16
Pedestal fund, The - 229
Photometer, A diffusion - 202
*Photometric valuation of intense lights, The 216
*Plating room connections - 215
Polar earth currents - 143
*Police patrol and time indicator, A new - 55
Power from central stations - 193
Precipitating copper by electrolysis, improvement in the apparatus used for - 95
Press Contracts - 95
Primary batteries at the Philadelphia Exhibition - 185
Question as to boilers, A - 117
Quite a number of them - 223
*Railroad velocipedes and hand cars - 97
Receivers' certificates - 117
Reporting the arrival of mail steamers - 97
Report of the Commissioner of Patents - 64
Resistance of the human body - 24
Retelling an old story - 1
*Reversible battery at the Observatoire Exhibition - 187
Review of the electrical events and progress in 1884, A - 2, 12, 32
Ribbon wire - 167
Robbed by its employees - 8
*Rotary circuit burglar-alarm, The - 188
*Secondary batteries, Charging - 255
Secondary battery tests - 223
*Secondary generators, Distribution of electrical energy by - 53
Senator James Daly's plans - 154
Shape of infernal machines, The - 233
Shocker shocked, The - 187
Signal officer reprimanded, The chief - 166
Self-Registering electric meter wanted, A simple - 42
Solar energy vs. coal for the production of electricity - 52
Some questions answered - 66
Sounder basis wanted, A - 64
*Southwark high-speed engine, The - 163
Spark of induction coils, The - 122
Special Sun for the city of Paris, A - 108
Sprague motor, The - 168
*Static electricity - 206, 237, 256
Stock Exchange quotations - 103
*Storage batteries in commercial use - 84
Storage battery or secondary battery - 165
Storage batteries at Baltimore - 135
Storing and transmitting power - 36
Storm, A costly - 34
Sugar refining by electricity - 216
Systems of communication - 256
*Telegraphic physiology - 178
*Telemeter system, The - 96
Tests at Philadelphia, The - 197
*Thermo-electric batteries at the Philadelphia Exhibition - 166
Three million dollars in bonds - 134
Thrilling Mexican tale, A - 46
Twenty-ton electric crane, A - 65
To whom belongs the credit? - 163
Trade-mark law and the Leclanché Battery 153
Transmission of power in New York city, The - 142
Treatment of sugar by electrolysis, The - 28
*Trenton high-speed engine, The - 223
Underground Bill, Loopholes in the - 221
Underground company in straits, An - 12
Underground law, Sanitary objections to the - 144
*Universal switch board, A - 234
*Van Depoele electric motor, The - 122
*Van Depoele exhibit at Philadelphia, The - 77
Very rapid installation, A - 72
Voltaic electromotive force, The seat of - 193
*Waite & Bartlett medical battery, The - 57
Watches and magnetism - 192
What will become of the ohm? - 134
Wimshurst electric machine, The - 67
*Woodward's curb conduit - 157
